

Mario Díaz González

Junior Web Developer

Logroño, Spain mariodiaz2007@gmail.com mk-1379.github.io github.com/MK-1379 LinkedIn

Second-year Web Application Development student with a focus on frontend. I have worked with Vue, Nuxt, TypeScript and Tailwind CSS during an internship at Globant, with React, Node.js and Express in personal projects, and with Java, PHP and SQL in class projects. I enjoy building polished, accessible interfaces that work well on any screen.

Experience

Frontend Developer Intern · Globant GUT — Mar 2026 – May 2026

- Built and maintained web interfaces with Vue.js, Nuxt, TypeScript and Tailwind CSS.
- Implemented components and features with attention to visual detail, consistency and responsive design.
- Worked in a team using Git and professional development practices.

Other experience

ALSE Servicios — Aug 2026

- Visitor reception, access control, customer service and administrative support.

Projects

LoLStats React · TypeScript · Node.js · Express · MySQL · Docker — github.com/MK-1379/lol-stats

Full stack web app with my League of Legends stats. REST API with Express, Zod and Prisma, a worker that syncs matches from the Riot API every 30 minutes, tests with Vitest and CI with GitHub Actions.

MediCita

Medical appointment web app with doctor and patient roles. Custom MVC, bcrypt passwords and prepared statements.

PHP · PDO · MariaDB

github.com/MK-1379/medicita

Kumafy

Desktop music player with a Windows installer and secure communication between processes.

Electron · JavaScript

github.com/MK-1379/kumafy

HospitalJDBC

Doctor and patient management with DAO and repository layers, and configuration kept out of the code.

Java 21 · JDBC · MySQL

github.com/MK-1379/hospital-jdbc
